VECKA 7: Fortsätter med 6 (Bygga på mer funktionalitet, tester, kvalitetsverktyg, dokumentation)

Meeting Agenda (Group: Alpha)

Date: 2020-10-12
Chair: Pontus Nellgård
Participants: Mathias Drage, Benjamin Sannholm, Bashar Oumari, Pontus Nellgård, Sophia Pham

Objectives (5 min)

- Review and merge recent changes.
- Update finished user stories.
- Assign the same or new tasks.

Reports (15 min) from previous meeting

- Sophia has tried using "Espresso Test Recorder" and worked on her test cases.
- Mathias has added a delete button that lets the user deletes its broadcast (user story #15)
- Benjamin has set up a testing coverage report using the tool Jacoco and finished tests for FirebaseBroadcastRepository.
- Bashar has refactorized the log-in classes and handled the user in both log-in and register. (story #12)
- Pontus is currently working on his test cases.

Discussion items and outcomes (35 min)

- New functionality and refactoring for the login and registration was reviewed and merged (story #12).
- Broadcast editing was reviewed and merged (story #6).

Assignments (5 min)

- Sophia will continue with the rest of her test cases.
- Pontus will continue with the rest of his test cases.
- Bashar will comment the login and registration code and try to implement some tests for login and registration (UI and services).
- Mathias will continue work on testing
- Benjamin will assist others with testing, possibly do some UX cleaning and work on material for RAD and SDD.

Wrap up
